## EXAMINER'S AMENDMENT

### *Election/Restrictions*

1. Newly submitted claims 8-14 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claims 1-7 and 8-14 are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, claims 8-14 have separate utility such as use in a screen-printing machine having a flood bar, because while all screen printing machines have a squeegee as claimed in claims 1-7, not all screen-printing machines use a flood bar as claimed in claims 8-14. See MPEP § 806.05(d).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 7-14 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### *EXAMINER'S AMENDMENT*

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Art Unit: 2854

Claims 8-14 have been canceled, because they are directed to a non-elected invention as discussed above.

*Response to Arguments*

3. Applicant's arguments filed 29 November 2004 have been fully considered but they are not persuasive.

In response to applicant's argument that the previously applied art is nonanalogous art, it has been held that a prior art reference must either be in the field of applicant's endeavor or, if not, then be reasonably pertinent to the particular problem with which the applicant was concerned, in order to be relied upon as a basis for rejection of the claimed invention. See *In re Oetiker*, 977 F.2d 1443, 24 USPQ2d 1443 (Fed. Cir. 1992). In this case, the previously applied art is in the applicant's fields of endeavor: cleaning a surface with a tacky cleaning apparatus; and mounting of cylindrical objects to brackets.

*Allowable Subject Matter*

4. Claims 1-7 are allowed.

5. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record does not teach or render obvious a cleaning attachment for a screen-printing apparatus having a mounting assembly for removably coupling a squeegee to the apparatus having all of the structure as claimed, including replacing the squeegee with a cylindrical roller attached to a mounting bracket adapted to be mounted to the same mounting structure that attaches the squeegee to the screen-printing machine.

Art Unit: 2854

*Conclusion*

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
